6month contract providing intensive physiotherapy rehab assisting with pt discharge back into the community setting
6. Shrewsbury hospital ICS team
Ongoing. Providing rehab in a patients home environment, facilitating discharge from hospital and preventing hospital admission via the "admission avoidance" service

Current Responsibilities (brief outline).

Currently I am professionally and legally accountable for all aspects of my work, including the management and treatment of patients in my care

At present I am one of several physios providing rehab within a community setting. Alongside the rehab aspect of my role we are also involved in admission avoidance and facilitated discharge. Time management and helping to make sure technical rehab assistants receive support in their duties is also part of my current duties.

I perform a comprehensive assessment of each patient including those with diverse/multiple pathologies and also use my clinical reasoning skills to provide an accurate diagnosis of their conditions and develop appropriate treatment plans.

Maintaining a CPD portfolio which reflects my personal development is also a priority.

Awards, certificates and relevant courses attended.

- Bobath normal movement course.
- Equality and diversity
- Recognising Mental health and awareness protocols
- Safe guarding adults
- Annual Stroke Audit.
- Manual Handling, Theory and Practical.
- In-service training, relevant to rotation.
- Water safety rescue.
- McKenzie back course.
- CPR mandatory.
- Child protection and vulnerable adults.
- CSP Stewards induction course (1week residential).
- Skills course for physiotherapists University College London (1month).
- Preliminary Coaching Award in Soccer Sports sponsored by Coca Cola.
- BBA Basketball Preliminary Coaching Award.
- Touch Rugby Coaching Certificate for the Able bodied.
- First Aid.

Currently I am based in Shrewsbury which has easy access to the M6 making travelling to most locations in that particular area (west mids) quite accessible.

I have also lived in Scandinavia previously so im not adverse to working or relocating abroad if the opportunity presents itself and I would consider all locations that became available.

Further in-depth information on prior experience can be provided if required along with references from previous positions.
